For Immediate Release

**CIMEG Metal Expo Expands
Includes Plastics Information and Products**
Oct. 23-25, 2007, Expo Guadalajara, Jalisco, Mexico

GUADALAJARA, Mexico (Sept. 12, 2007) – CIMEG, the Jalisco Chamber for Metalworking, together with Mexico's National Chamber for Electronics, Telecommunication and IT Industries (CANIETI) and ROC Exhibitions, Inc., present PrecisionFab Metal & Plastics Expo, Tuesday through Thursday, Oct. 23-25, 2007, at the Expo Guadalajara, Av. Mariano Otero No. 1499, Col. Verde Valle, Guadalajara, Jalisco Guadalajara, Jalisco, Mexico.

The event, part of Mexico's International Design and Manufacturing Technology Week drew more than 6,000 attendees last year and is the best-attended manufacturing event in Mexico. PrecisionFab brings together a complete and comprehensive mix of materials fabrication products and technologies used in a wide variety of industrial applications, like electronics, auto parts, medical devices and household appliances.

PrecisionFab features such categories as metal forming machinery and equipment, tooling and supplies, metal joining and assembly, material handling and storage, software and systems, surface finishing, plant safety and environmental protection, plastics processing machinery and equipment, thermoforming equipment, raw materials, tools, dies and molds, robotics and automation, quality control, and calibration and testing.

PrecisionFab show hours are from 4 p.m. to 9 p.m. on Tuesday and Wednesday, and from 4 p.m. to 8 p.m. on Thursday. Visit www.expoprecisionfab.com for conference and expo information and to register online. To arrange for an exhibit, contact Jerry Carter at info@rocexhibitions.com.
